

# Frédéric HAESEBAERT

Axe 2 - Equipe PsyR<sup>2</sup>  
MD, PhD in neuroscience

## RESEARCH TOPICS

I'm a psychiatrist and clinician researcher in neuroscience. These last years, I have developed research studies dedicated to the understanding of cognitive process underlying psychotic symptoms.

## METHODS

I have a specific interest on basic auditory disturbances in schizophrenia and their contribution to higher order cognitive deficits. As a medical teacher I am involved in research in KTE (knowledge transfer and exchange) addressing the gap between knowledge from research data and real-life implementation.

## TRAINING

- M.D in Psychiatry (Lyon) 2010
- PhD in Neurosciences (Lyon 1 University) 2013
- Post-doctoral fellow in Psychiatry & Neurosciences at Laval University (Québec, Canada) 2016-2018
- Assistant professor in psychiatry at Lyon Est faculty of medicine (Lyon 1 university) & senior clinician (the Vinatier Hospital, Bron, France) since 2019
- (CRNL, Lyon, France)
